# Growing Together, Thriving Together

At Downe House Riyadh, we believe a truly exceptional education is built upon a deep and meaningful partnership between home and school. Parents in Partnership is our way of nurturing that connection, a curated programme of experiences, workshops, and celebrations that authentically bridge family and school life.

It reflects who we are: a community of purpose, compassion, and shared vision. Through opportunities to witness learning in action, contribute expertise, and celebrate culture and student achievement, we strengthen the vital link between parents and educators. This is where Downe House Riyadh becomes the home of the Downe House Difference.

Whether you are attending a Medley Lecture, engaging in Early Years transitions, joining us for a Performing Arts performance, or connecting through Iftar or Fiesta, each initiative is designed to foster shared joy, mutual understanding, and a powerful sense of belonging.

Welcome to a place where community is lived, not spoken, and where Downe House Riyadh becomes the home of every family belonging.

# Wellness Mums

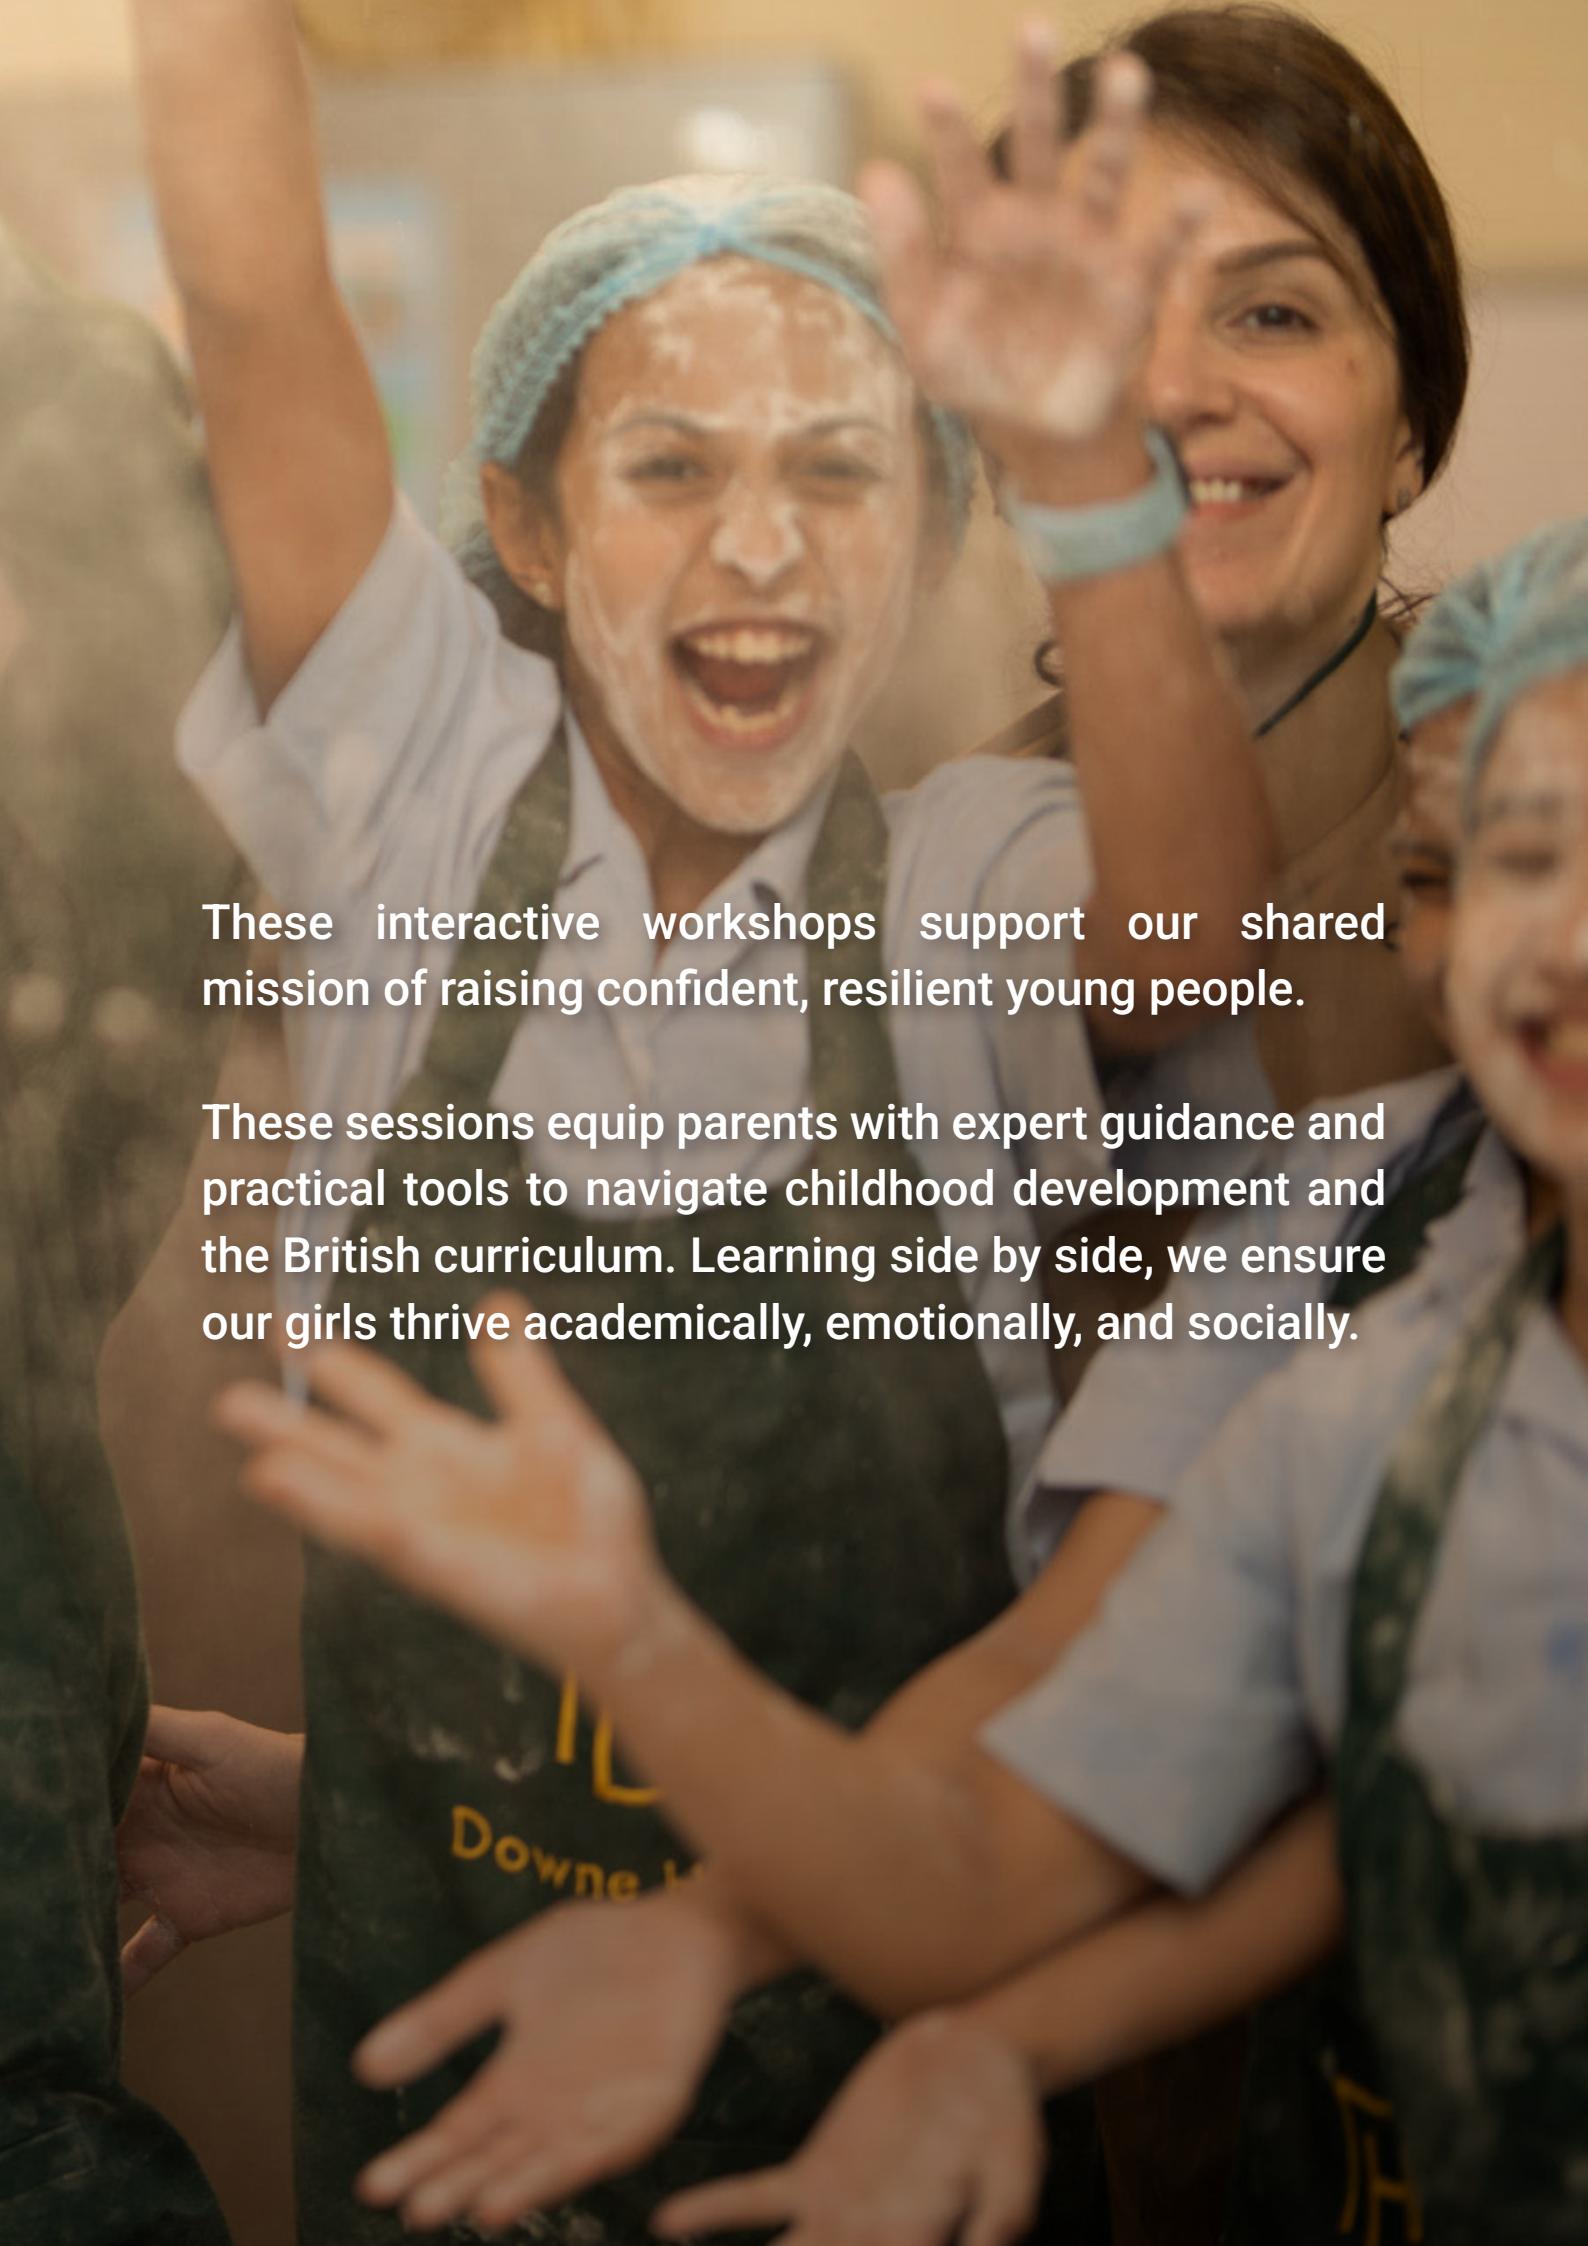

A joyful, revitalising experience where our mothers come together for yoga, movement, and mindful connection.

At Downe House Riyadh, we believe that our care extends not only to our students but to the remarkable women who support them. When mothers feel well, connected, and supported, their daughters flourish.

A group of people, likely a team or group of friends, are gathered in a workshop or kitchen setting. They are wearing matching dark aprons with a large yellow 'H' logo on the chest. Some aprons also have the text 'House' and 'Koch' visible. They are all wearing light-colored hairnets and are smiling and laughing, creating a joyful and collaborative atmosphere.

# Thriving Together, Workshops and Insights

These interactive workshops support our shared mission of raising confident, resilient young people.

These sessions equip parents with expert guidance and practical tools to navigate childhood development and the British curriculum. Learning side by side, we ensure our girls thrive academically, emotionally, and socially.

# Parent–Teacher Conferences

Our Parent–Teacher Conferences are meaningful opportunities for connection, clarity, and collaboration. They are a cornerstone of our academic partnership, allowing parents to engage with class teachers and subject specialists who understand each student's learning journey.

Together, we celebrate progress, explore pathways, and plan forward with purpose. This united approach gives our pupils the confidence and stability they need to flourish.

# Learning in Action

English, Mathematics and Arabic in Action events invite parents to step into the classroom and experience the learning environment first-hand.

These sessions illuminate not only what our students learn but how they learn, offering insight into the pedagogical approach that underpins the British curriculum. This shared understanding strengthens the partnership between home and school, empowering every child's learning journey.

The Early Years mark the beginning of a child's journey into learning, friendship, and independence. We recognise that this moment is significant for both child and parent. Our bespoke Early Years transition programme offers families a window into the warm, play-based environment that shapes each child's first experiences of school life. By understanding the purpose behind every routine, activity, and interaction, parents feel confident walking alongside their daughter's earliest steps at Downe House Riyadh.

# Celebration Days, Science, Stories, and Showcasing Learning

Events such as the Science Fair and World Book Day offer students the chance to take the lead, sharing their discoveries, ideas, and creativity with the people who matter most.

These joyful occasions are an invitation for families to engage with their daughter's learning in an interactive, meaningful way.

# Performing Arts, Moments to Share and Memories to Treasure

From music concerts to school productions, our Performing Arts events are highlights of the school year.

They are moments where courage, creativity, and talent come alive on stage, and where parents share in the pride of their daughter's achievements.

These occasions celebrate both individual expression and community spirit, creating memories that last a lifetime.

# Primary Sports Afternoons

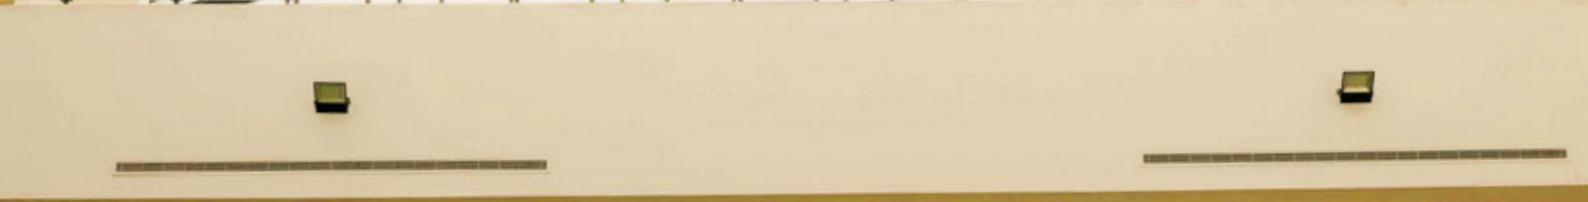

Our Sports Afternoons are celebrations of teamwork, resilience, and House spirit. Whether running races or navigating obstacle courses, our students shine through determination and support for one another.

The presence of parents on the sidelines – cheering, encouraging, and celebrating – makes all the difference. Your support reinforces the values of perseverance and community.

# Friends of Downe House Riyadh

The Friends of Downe House Riyadh committee is a vital part of school life. Every parent is a member, but our dedicated committee members take the lead in shaping events, hosting guest speakers, and fostering meaningful engagement between families and the school.

Entirely parent-led, this group is the heartbeat of our community, where ideas come to life and lasting connections are made.

# Unity in Celebration, Fiesta and Iftar

Our Fiesta and Iftar are two of the most cherished events in the school calendar.

Fiesta celebrates House spirit and cultural connection with a joyful carnival atmosphere, while Iftar brings the entire school together in a moment of unity and reflection, honouring the values of our host culture.

These occasions are powerful reminders of what it means to belong to a compassionate, inclusive community.

# Medley Lectures, Shared Wisdom and Shared Journeys

Inspired by a longstanding tradition at Downe House in the United Kingdom, our Medley Lectures invite parents to share their professional journeys, life stories, and insights with our students.

These intimate sessions expand perspectives, ignite ambition, and strengthen the fabric of our community. Whether presenting or attending, every parent is welcome to be part of this shared learning experience.
